**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1, 3-10 and 12-24 allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for measuring length in an interferometer including: generating a single radiant source configured to emit radiation as a metrology source having a known wavelength profile or a spectral lamp; amplifying the radiation from the single radiant source of the known wavelength profile to produce amplified radiation; and filtering the amplified radiation to pass a predetermined wavelength of the known wavelength profile, in combination with the rest of the limitations of claim 1.

As to claim 10, the prior art of record, taken alone or in combination, fails to disclose or render obvious a device for calibrating a spectrometer including: a single radiant source configured to emit radiation as a metrology source, the radiant source being a spectral lamp having a known wavelength profile; an optical amplifier configured to amplify the radiation emitted by the single radiant source to produce amplified radiation of the wavelength profile; and, a filter configured to pass a predetermined wavelength of the wavelength profile of the amplified radiation, in combination with the rest of the limitations of claim 10.

As to claim 20, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for determining length in a spectrometer including: generating a single radiant source configured to emit radiation as a metrology source having a known wavelength profile or a spectral lamp; amplifying the radiation from the single radiant source of the known

wavelength profile to produce amplified radiation; and filtering the amplified radiation to pass a predetermined wavelength of the known wavelength profile, in combination with the rest of the limitations of claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
